

Introducing the HeroWear

APEX EXO

Strong. Lightweight. Built to sustain the strength of every worker.

The Apex is a back-assist exosuit that reduces strain on the back without getting in the way. Working men and women deserve tough gear that helps them tackle tough jobs. Now, their weight is over.

Industry-Leading Features

Combining groundbreaking exo tech with industry-leading apparel manufacturing to deliver unprecedented value.

Power. Can reduce over 50 lbs. of strain on the back with every bend, lift and lean.

Reliability. No motors. No batteries. Maximum durability.

Maximum Mobility. On/off switch gives strength when needed, and flexible freedom to move when it's not. Strength shouldn't slow you down.

Female-Specific Fit. Work isn't one-size-fits-all. Exos shouldn't be either. The Apex is the world's first exosuit for all, built for men and women of every size.

Game-Changing Value

Back injuries compromise worker health and productivity. We reduce muscle strain to lower the risk of back pain, overuse and overexertion injuries.

Built for Flexibility. Maximizing available movements, our exo is the perfect choice for workers in warehousing, logistics, industrial and military sectors.

Manufactured for Comfort. The Apex's textile-based design eases worker adoption.

Supported With Service. Your HeroCare 360 program covers fitting, training, maintenance, and more.

Backed by Science. Based on groundbreaking technology developed at one of the world's leading research institutions, the Apex is backed by peer reviewed science.

Your workers deserve a device that reduces injury risk and improves performance. Now they have it.
